

UNV 101 Team Worksheet 2

In this worksheet, you will be evaluating the performance of everyone on your project team, including yourself. Numerically rank all members of your team with a different score. For example, if your group has three members, you will rate each member from most to least valuable with a 1, 2, or 3, but **each number can be used only once**. A score of **1 means most valuable contribution**. A score of two is second most valuable, etc.

UNV 101 Team Worksheet 2

Review the scores and comments you have written for the above categories and assign an average score for each team member, **including yourself**. As before, **each member of your team must be given a different score**. The score of 1 means most valuable contribution, a 2 means second most valuable contribution, etc.
