

DEVELOPMENT PROJECT (Worth 45%)

Professor Gokcek

Imagine that you work as consultants for an international consulting firm, which provides consultation on development issues to governments in Global South countries. In teams of two, your job is to address a specific development problem. The consultation demands that the teams provide (1) a thorough analysis of the specific development problem, and (2) offer viable solutions on how the chosen country could deal with the challenge. As the owner of this consulting firm, I require you to present on your development project, to me and to other consultants in the firm, on Monday, April 25 or Wednesday, April 27 from 9:25-10:40AM. You are also required to submit to me via email attachment a written report that clearly presents your recommendations due Friday, May 6 by 8AM. Further instructions are as follows. Please follow them carefully.

Development Project Oral Presentation (worth 15%):

- 1) Identify and explain the development problem thoroughly
- 2) Provide any relevant background information that contributed to this problem
- 3) Specify why this problem persists and what factors make it difficult to combat
- 4) Offer viable and sound solutions that will potentially resolve this problem
- 5) Consider any possible negative consequences associated with any of the solutions
- 6) Include any pertinent data, charts, tables, and graphs to support your points
- 7) Be creative and imaginative
- 8) Utilize imagery that conveys the problem
- 9) Check grammar and spelling
- 10) Make sure each partner has equal time in presenting

*Total presentation time is 20 minutes maximum.

Development Project Written Report (worth 30%):

- 1) Identify and explain the development problem thoroughly
- 2) Provide any relevant background information that contributed to this problem
- 3) Specify why this problem persists and what factors make it difficult to combat
- 4) Offer viable and sound solutions that will potentially resolve this problem
- 5) Consider any possible negative consequences associated with any of the solutions
- 6) Include any pertinent data, charts, tables, and graphs to support your points
- 7) Be creative and imaginative
- 8) Check grammar and spelling
- 9) Cite all sources appropriately
- 10) Use Times New Roman 12 font, section headings, a cover-page, and number pages

*Upload to TURNITIN and email to Professor Gokcek by the due date
